

## RESEARCH REQUEST FORM

Name: Justin Booth

Email: [justin@gobike.org](mailto:justin@gobike.org)

Organization: GOBike

Description: GObike Buffalo is working to build a thriving, dynamic and connected Buffalo by promoting biking, alternative transportation options, and improved streetscapes to create positive impacts on health, our environment, our streets and the overall quality of life for all residents.

Research: What are the health impacts of large expressways like the Scajaquada? It would be helpful to conduct a medical, scientific study on what are the health impacts of these major expressways in Buffalo. What are these roads doing to not just our physical safety and our communities but to our overall health?

Title: Not just passing through: Health impacts of Large expressways in Western New York

Date: As soon as possible.

How: If we can show that these major roadways are negatively impacting our health, then we can better advocate for alternative transportation and improved streetscapes.

Others: Possibly the WNY environmental alliance

Resources: We have a lot of community connections and support for alternative transportation and have published research on a variety of these topics.
